Propagation Watch

There's both good news and bad news for DXers in the propagation crystal ball. The good news is that solar activity is picking up, as shown by a steady increase in solar flux. Look for a peak of about 240-250 around June 8. This should keep 15 and 17 meters open throughout the day, and 20 meters open most of the night.

The bad news is a series of flares from two active Sunspot Regions. Region 6654 produced 10 C- and M-class flares on May 28th alone. And Region 6652 is a return of old Region 6615, which produced six M-class flares in May. Either of these regions could give DXers a propagation headache, in the form of a major (X-class) flare. This can black out HF signals on the sunlit side of the earth, and lead to disruptions in the geomagnetic field, and disturbed conditions, a day or so later. These regions will be on the western half of the sun this next week, a position leading to more geomagnetic activity. Keep an ear on WWV (or WWVH) and be prepared to work auroral QSOs on VHF!

In the absence of major flares, propagation on 20-15 meters will remain good. Look for some north-south QSOs on 10 and 12 meters, and be alert for skew paths, to either side of the polar regions, around local dawn.

Notes From All Over

■ **High Tech Heil** is a weekly one-hour telecast on satellite TV, by Bob Heil K9EID, of Heil Sound. The show covers various aspects of amateur radio, equipment, publications, etc. Bob is looking for high-quality VHS, super VHS or Hi Pro 8 video tapes of shacks, DXpeditions, etc., for the show. If you have something suitable, contact Bob at 616-296-3000. Hams with satellite dishes can catch the show at 0200Z Tuesdays on Spacenet 1, transponder 15. (That's Monday evening, local.)

■ **The Solomon Island** operation by Roger G3SXW/H44SX, Nigel G3TXF/H44XF, and Ian G3WVG/H44VG made 23,387 QSOs, all CW. Fully 55% of the QSOs were with European stations, a super effort! 15 meters was the main band, followed by 10 and 20. During daylight hours, only 10 and 12 meters were open. QSL routes: H44SX: Roger Western G3SXW, 7 Field Close, Chessington, Surrey KT9 2QD, England; H44VG: Ian Pritchard GW3WVG, Homelea, Manor Road, Abersychan, Pontypool, Gwent NP4 7DT, Wales; H44XF: Nigel Cawthorne G3TXF (not G3FXB as typed earlier) Falcons, St. George's Avenue, Weybridge, Surrey KT13 0BS, England.

■ **DXPO 1991** will be held in Atlanta, Georgia, on Saturday, July 27. The Southeastern DX Club, in conjunction with the Atlanta HamFestival, will hold a banquet in the evening, with Jack and Nancy Reed of ET2A fame as the keynote speakers. Cost of the banquet is \$25, to Atlanta Radio Club, Box 77171, Atlanta GA 30357. (An additional \$6 will get you entry into the HamFestival.)

■ **Dave Porter K2PBB/ZD8DX** is in the intensive care unit of Holmes Regional Hospital in Melbourne FL, after breaking his back in four places in a freak fall in Ascension Island. While he is not able to take calls, he welcomes cards and letters to the hospital at 1350 South Hickory St., Melbourne FL 32901. DXers can also send get-well messages via packet to K9ES @ N5AUV.

■ **Guantanamo Bay on 6 Meters?** Doug Donley KG4DD, the most active amateur in Gitmo, is looking for a six-meter rig and antenna to borrow until his tour ends next April. The last six-meter operation from Gitmo was by KG4SM two years ago. If you can help, contact Doug at Box 692 FPO NY NY 09593-0055, or via packet at KG4DD @ HH2PK. Doug has been quite active on RTTY recently.

■ **European-Sized Envelopes** are now available from Bob Schenck N2OO, at a postpaid price of \$10 for 50 5" x 6 1/4" airmail envelopes (USA orders only). Address: Box 345, Tuckerton NJ 08087.

■ **The South American CW Contest** runs 1500Z June 8 to 1500Z June 9, 160-10 meters, CW only. Single-operator, single-band or multi-band, and multi-operator, single-transmitter classes. Exchange RST and consecutive serial number beginning with 001. QSOs with stations in your own country count for multiplier credit only; with stations in your continent: 2pts; with stations in other continents: 4pts; with South American stations: 8pts. Multipliers are DXCC countries (including South American countries) and South American prefixes, per band. Separate logs per band. Send log to WWSA Contest Committee, Box 2673, 20001 Rio de Janeiro RJ Brazil, by July 31. (A copy of the rules and 1990 results is available from The DX Bulletin for an SASE.)
